EXAMPLE — not a real quote

Rooftop Solar Proposal

Generated from Indian Karigar Studio · Solar Installer Quote & Payback Kit (India)

Your Solar Co.
+91-XXXXXXXXXX

Prepared for	**Client Name**
Site	**City, State**
Quote date	**2026-11-05**
Recommended system size	**3.82 kWp**
Panels	**7 × 545 Wp**
Estimated year-1 generation	**5,341 kWh**
Share of yearly use covered	**~99% (EXAMPLE defaults)**
System price (incl. GST)	**₹2,64,723**
Subsidy (if eligible — VERIFY)	**₹0**
Your net cost	**₹2,64,723**
Estimated year-1 saving	**~₹33,500 (bill + export − O&M)**
Estimated simple payback	**~7.4–7.9 years (depends on sheet assumptions)**
Est. monthly EMI (example 9.5%, 60 mo)	**~₹5,560**

All figures are **EXAMPLE** defaults from the free sample / kit Inputs sheet (450 kWh/mo bill, 1,400 kWh/kWp/yr yield, ₹8/kWh tariff, 70% self-use, ₹3.5/kWh export credit, 0 subsidy). Replace with the client's tariff, DISCOM export rate, site yield (PVWatts/PVGIS), supplier prices and current subsidy rules before sending to a homeowner. Not financial advice. Full workbook (sizing, parts & margin, 25-year payback, sensitivity, EMI, net metering, quote compare, this proposal tab): ₹499 → https://rzp.io/rzp/vDOX9lJ ·
